

**ADDENDUM NO. 1
Project No. 2000**

MASTER PLAN UPDATE

Blue Grass Airport, Lexington, Kentucky

Date of Issue: March 12, 2020

The following items take precedence over the Request for Qualifications Documents.

Though you serve the aviation industry and must travel on a consistent basis, we understand that the spread of the COVID-19 virus has triggered a number of travel concerns and has generated the need to avoid group gatherings.

Due to these health and travel concerns, the airport is suspending the consultant selection process for its Master Plan Update. The Pre-Submittal Meeting scheduled for March 18, 2020 is cancelled. The project will be re-advertised in the near future.

We thank you for your interest and look forward to launching the project soon.

Mark Day, PE AAE
Director of Development and Facilities
