

Blue Grass Airport Regional ARFF Training Center

COURSE LIST

ARFF-100: Basic Aircraft Rescue Firefighting

This course is designed to introduce and/or review the necessary skills, knowledge and techniques to perform aircraft rescue firefighting. This course follows the curriculum established in AC 150/5210-17C, Programs for Training of Aircraft Rescue and Firefighting Personnel and consists of half classroom and half practical instruction. A class curriculum is available upon request. **Course Length: 40 hours; Cost: \$1,000**

ARFF-300: Basic Certification Burn

This course is designed to meet FAA requirements for a live-fire drill under Part 139.319. The Fuel Spill Trainer will be used for truck or hand line evolutions as requested by attendees to meet department requirements. Engine and brake fires will also be included. **Course Length: 4 hours; Cost: \$300**

ARFF-301: Advanced Certification Burn

This course is designed to exceed FAA requirements for a live-fire drill under Part 139.319. The Fuel Spill Trainer will be used for truck or hand line evolutions as requested by attendees to meet department requirements. Also included in this course are scenario-based training exercises using the Specialized Aircraft Fire Trainer (SAFT). This includes full scale incident response to review command structure, scene size-up, and victim rescue, as well as interior, wheel and brake fire suppression. **Course Length: 8 hours; Cost: \$375**

ARFF-400: Basic Structural Approach to ARFF

This course is designed to prepare the structural firefighter/department to mitigate aircraft accidents and incidents. Topics of instruction include aircraft familiarization, tactics and strategies, rescue techniques, and fire suppression as well as adapting structural equipment for aircraft rescue firefighting (ARFF). Live fire drills included. This course is currently offered to groups only. **Course Length: 8 hours; Cost: Call for pricing**

ARFF-401: Advanced Structural Approach to ARFF

This course is designed to provide a more in-depth review of ARFF techniques to further prepare the structural firefighter in their response. Topics of instruction include aircraft familiarization, tactics and strategies, rescue techniques, and fire suppression as well as adapting structural equipment for aircraft rescue firefighting (ARFF). Live fire drills included. This course is currently offered to groups only. **Course Length: 16 hours; Cost: Call for pricing**
