Please see page 2 for class descriptions and prices.

Course List

ARFF-100 Basic Aircraft Rescue Firefighting

This course is designed to provide the necessary skills, knowledge and techniques to perform aircraft rescue firefighting. This course meets or exceeds the initial FAA ARFF firefighter certification requirements under Part 139.319 and consists of half classroom and half practical instruction. Upon completion, attendee will meet the FAA requirement for an ARFF firefighter for 12 calendar months. A class curriculum is available upon request.

Course Length: 40 hours

Cost: \$800

ARFF-300 Basic Certification Burn

This course is designed to meet FAA requirements for a live-fire drill under Part 139.319. The Fuel Spill Trainer will be used for truck or hand line evolutions as requested by attendees to meet departmental requirements. Engine fires will also be included.

Course Length: 4 hours

Cost: \$225

ARFF-301 Advanced Certification Burn

This course is designed to exceed FAA requirements for a live-fire drill under Part 139.319. The Fuel Spill Trainer will be used for truck or hand line evolutions as requested by attendees to meet departmental requirements. Also included in this course are scenario based training exercises using the Specialized Aircraft Fire Trainer (SAFT). This includes full scale incident response to review command structure, scene size-up, and victim rescue, as well as interior, wheel and brake fire suppression.

Course Length: 8 hours

Cost: \$300

ARFF-400 Basic Structural Approach to ARFF

This course is designed to prepare the structural firefighter/department to mitigate aircraft accidents and incidents. Topics of instruction include aircraft familiarization, tactics and strategies, rescue techniques, and fire suppression as well as adapting structural equipment for aircraft rescue firefighting (ARFF). Live fire drills included. This course is currently offered to groups only.

Course Length: 8 hours

Cost: Call for pricing

ARFF-401 Advanced Structural Approach to ARFF

This course is designed to provide a more in-depth review of ARFF techniques to further prepare the structural firefighter in their response. Topics of instruction include aircraft familiarization, tactics and strategies, rescue techniques, and fire suppression as well as adapting structural equipment for aircraft rescue firefighting (ARFF). Live fire drills included. This course is currently offered to groups only.

Course Length: 16 hours

Cost: Call for pricing
